LOGISTICS

The company on tour consists of 3 artists and 1 or 2 technicians.

BUILT UP D-2 : 1 day and a half

BUILT DOWN D+1 : 5 hours

The company comes with a 20m3 van, please provide parking.

Performances: 14 people per session. 5 sessions per day.

TECHNICAL TEAM

The organizer should provide with :

- 1 light technician
- 1 sound technician
- 1 stage manager

See page 4 for a precise schedule.

- 1 person welcoming the audience during all the sessions.

STAGE AND EQUIPMENT

The organizer should provide with :

- A (preferably) indoor space, as quiet as possible.
- The space should be flat and leveled and have the following minimum dimensions : 9m opening - 13m depth - 4m cleared height
- At least 2 items for reaching a working height of 3.50m (ladder, tower, lift or genie)
- 2 tower lifts, minimum load 75 kg - max 250 kg, height 3.50 - 4 m, with truss supports
- 2 tables minimum size : 75cm x 160cm
- 1 table (40x80 cm) for stage control

LIGHTS

The lights will be set on the scenography. Therefore the lights should not be rigged before the arrival of the company. However, all the connections to the dimmers and all the necessary extensions should arrive to the stage before the arrival of the company.

The organizer should provide with :

- Dimmers minimum 15 channels of 3kw each.
 - 8 Fresnels 1Kw
 - 3 Fresnels 650w
 - 1 Sunstrip 2kw
 - 1 floor plate
- 11 extensions cords 5m
- 6 extensions cords 10m
- 4 extensions cords 15m
- 6 extensions cords 20m
- 6 multiplugs with at least 4 sockets each
- 8 non dimmable 16A sockets.

Filters	Formats
L202	2 x Fresnel 1000W
L106	3 x Fresnel 1000W
L136	1 x Fresnel 650W

The placements of all the equipment is marked on page 4 (stage plan)

SOUND

The sound is controlled by the mixtable of the company placed on stage through 4 XLR output.

The organizer should provide with :

- 2 DIs
- 4 speakers on stands with XLR to the mixtable

Placements are marked on page 4 (stage plan)

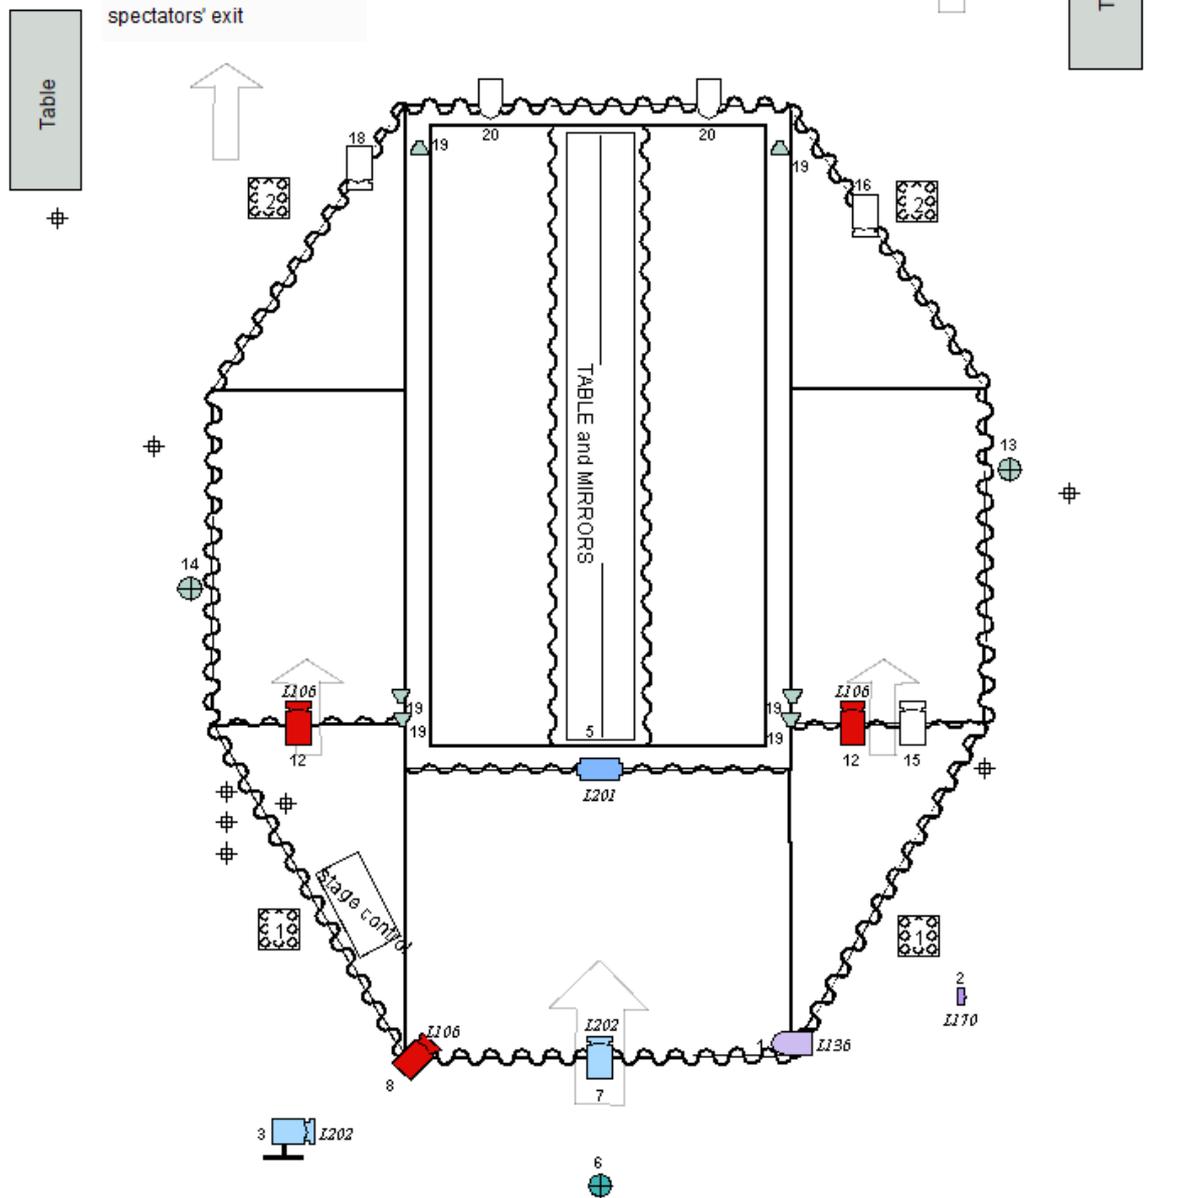

BE AWARE :

- The show is for 14 audience members and can be performed up to 5 times in a day.
- The audience will walk on the stage and interact with the scenography.
- The audience will exit via the emergency exits of the stage.

If any of those points are problematic, contact Marjolaine in order to find good solutions.

FHEEL CONCEPTS TEAM

3 artists & 1 technician

TOUR CONDITIONS

STAGE

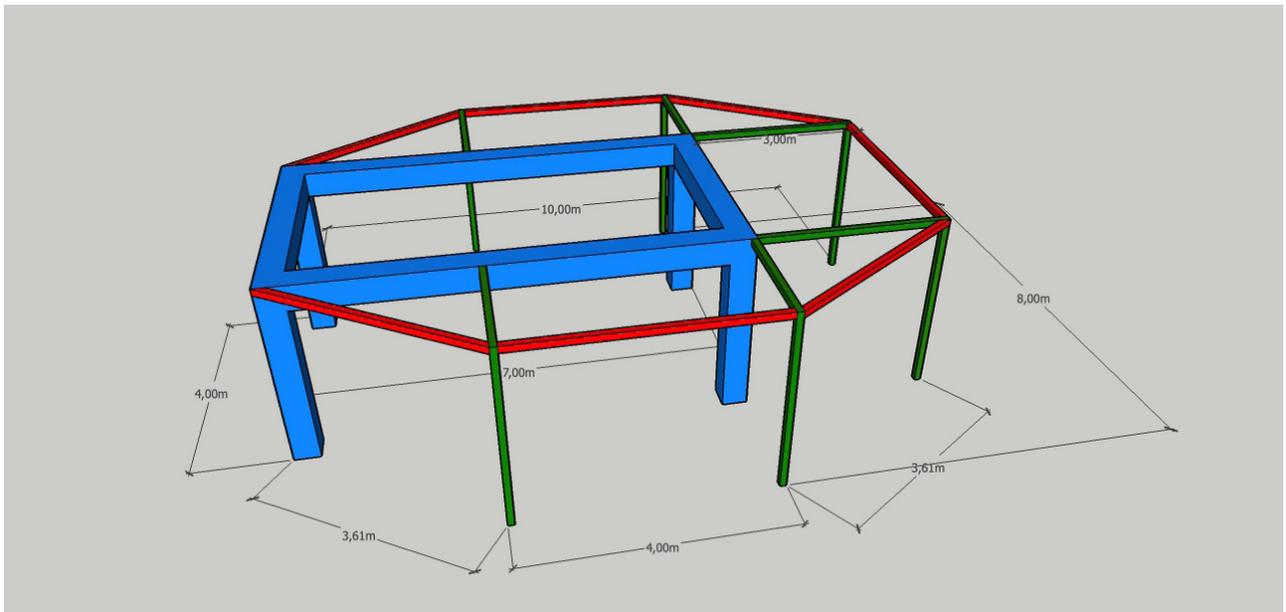

We are asking that the stage have a temperate temperature not exceeding 27°C. The virtual headsets glasses will be stored there, hence the thermal condition.

CATERING

"Live just so others can live." It is in this spirit that we want the catering: simple with preferably local and natural products such as fresh seasonal fruits and dried fruits (figs, nuts, hazelnuts, etc.) and/or sweet and savory local specialties, water, tea and coffee. Feel free to improvise.
